FRONTEND DEVELOPMENT

SUMMARY

- Highly motivated and skilled front-end Developer with a strong foundation in web development and a passion for creating user-friendly and visually appealing interfaces. Practical front-end web development experience in writing and testing valid, web standards-based HTML, CSS, JS.

EXPERIENCE

FRONTEND DEVELOPER INTERN

CODDING SHUTTLE

📅 Dec 202 – Mar 2023

📍 India

- Introduced impactful **React.js applications utilizing Redux**. Constructed and maintained datadriven user interfaces to ensure an intuitive **user experience**.
- Leveraged **JavaScript**, **HTML**, and **CSS** to create dynamic web applications.
- Designed efficient **REST APIs** to retrieve and manipulate data.

PROJECTS

E-COMMERCE WEBSITE

| **Live Demo** | **GitHub**

- Development of an e-commerce website using **React js**, **Redux**, **HTML**, **CSS**, and **JavaScript**. This project aimed to create a fully functional online store, providing users with a seamless shopping experience.
- Creating reusable **React components** for product listings, product details, shopping cart
- Implementing **Redux** for efficient **state management**, allowing seamless data flow throughout the application.

FOOD-APP | **Live Demo** | **GitHub**

- Developed a food ordering app website using **React.js**, **HTML**, **CSS**, and **JavaScript** and also used a **Material UI**
- Creating **responsive** and visually appealing user interfaces to provide an optimal experience across different devices and screen sizes.

WEATHER-APP | **Live Demo** | **GitHub**

- Successfully developed a weather application using **HTML**, **CSS**, and **JavaScript**, leveraging the **Fetch API** to retrieve weather data. The purpose of this project was to provide users with real-time weather information for a given location.
- Implementing the Fetch API to send **HTTP requests** to a weather **data API** and retrieve the relevant weather information.
- Utilizing JavaScript to handle user interactions, such as inputting location and triggering weather data retrieval.

CRYPTO-CONVERTER-APP | | **Live Demo** | **GitHub**

- Engineered a cutting-edge Crypto Converter using **React JS** and **API** to enable effortless **conversion of 50+ currencies**; reduced processing time by 70 and improved user experience by 50
- Integrated **APIs** to **fetch** real-time cryptocurrency data and convert between different currencies.
- **Utilized** React JS for developing a **user-friendly front end** interface that allowed **users** to **performance conversions**.
